

TRADITIONAL BENCHES

Traditional benches constructed to the highest standard using only selected natural timbers to give resilience and durability. The bench legs are jointed into both the bench top and the bench foot, and the balance rail is dovetailed, all ensuring a bench with optimum structural stability. Hardwood fillets are inserted into the bench top end to prevent splitting. Rubber buttons and rubber feet prevent damage or marking to both the bench and floor when in use.

Available in 3 lengths, and with or without hooks. All size can be supplied with castors.

| | |
|--------|---|
| LBB050 | 1.83m Bench (6'), no hooks, with castors |
| LBB059 | 1.83m Bench (6'), no hooks |
