TEACHERS AND COACHES JUMP FOR JOY

Niels Larsen, the leading gymnastics company, well known for its innovative new ideas, have now published the latest in their well received series of **SUPPORT PACKS** covering the Jump for Joy soft play range.

Written and illustrated with the needs of teachers and coaches in mind, these **PACKS** will be of tremendous help in overcoming the challenges of teaching gymnastics and movement.

Jump for Joy consists of three distinct ranges called Frolic, Move & Play and Sport. The equipment is designed to assist in the step by step development of children at all ability levels.

All the Niels Larsen **SUPPORT PACKS** have received positive feedback and the series covers a further two ranges. The first is Box of Tricks which is a wonderful compendium of small games apparatus, housed in a compact storage unit which features a vaulting/agility platform. Completing the set is Gym Time, an adaptable and fully interchangeable range of trestles, tops and linking apparatus.
